MEMORANDUM FOR: Director of Communications

SUBJECT : Request for Special Personnel Support
Project AQUATONE/RAINBOW

1. This activity is in urgent need of the services of two trained technicians of the type which the Office of Communications is able to provide. Your office has been providing this support intermittently over the past several months, on a temporary loan basis. This assistance has been of the greatest value to us. However, we now foresee requirements for the services of two trained technicians extending over the next six months or more and desire to make such arrangements as are necessary to add these personnel to our Project Table of Organization.

2. [REDACTED] is presently on loan to us. He has valuable experience on the work in progress and we most urgently need to retain his services. In addition we have urgent need of another similarly trained person.

3. I can assure you that the nature of the work on which these two technicians will be engaged is of the highest order of importance and of vital concern to the success of the subject project.

4. May I request your early consideration of this request inasmuch as the operation is proceeding rapidly into the action phase wherein these skilled persons will be required as soon as they can be made available.

RICHARD M. RISSELL, JR.
Special Assistant to the Director
for Planning and Coordination
